FOUR ARE HURT  
WHEAT CAR SKIDSDale Stowe, Driver for Bus  
Line, Is Dead.Four K. U. Students and In-  
structors Are Injured.

AUTO TURNED OVER IN DITCH

Icy Pavement Cause of Fatal  
Accident on Sixth Ave.Ditch Probably Saved Lives of  
the Four Girls.

A thin coating of ice on the pavement was responsible for the overturning of a Jewett car belonging to the White Star bus line, of Topeka, about 11 o'clock this morning eight miles east of Topeka on the East Sixth avenue road, resulting in the death of Dale Stowe, 18, the driver, and the injury of four girls, students and student instructors at Kansas university. All were pinned under the car.

The injured girls are: Miss Leona Bonagardner, daughter of Prof. and Mrs. W. J. Bonagardner of Lawrence; Miss Mary Ewing, Miss Ann Suderman, Miss Helen Converse, Miss Selma Goodrich, daughter of Mr. and Mrs. C. E. Goodrich, of Topeka, who were in the car, escaped without injury.

On Way to Attend Meeting Here. Miss Bonagardner suffered injuries to her spine, a serious one, which could not be determined this afternoon. Miss Ewing was badly cut and bruised and suffered from shock and exposure. Miss Suderman suffered from inhaling gas fumes from the exhaust pipe and Miss Converse sustained a broken arm. The young women were on their way to Topeka to attend the meeting of the Kansas Medical Laboratories association at the Chamber of Commerce.

Stowe was a brother of William Stowe, manager of the White Star Bus line. The injured girls were brought to Stormont hospital in ambulances, where they were being treated this afternoon by Dr. Seth Walker.

He was a son of Frank Stowe, 209 East Seventh street, and is a brother of Mrs. E. W. Lee, wife of E. W. Lee, a farmer living on route 1, E. E. Lee is a brother of J. H. Lee, president of the Kansas Reserve State bank.

Car Turned Over in Ditch. Stowe was driving his car toward Topeka. Approaching a curve about three miles east of Topeka, he apparently applied the brakes, which caused the car to skid. It is thought that one wheel ran onto the earth shoulder of the road, and that this was responsible for the accident. The car whirled completely around and turned over on its back in a ditch.

This ditch probably saved the lives of one or all of the girls, as it held up the sides of the car, leaving a hollow underneath. E. M. Boyd, 1448 Lafayette street, who was hauling a load of crushed rock to Topeka, was following immediately behind the auto and witnessed the accident. With two other men he managed to raise one side of the car and prop it up while the victims were taken from the wreckage. Dr. J. P. Walker, of Topeka, Professor Dawson, of the K. U. engineering department, came along from Lawrence immediately following the accident and assisted in the removal of the car. Dr. Walker did excellent work in resuscitating the girls.

Died on Way to Hospital. Stowe's chest was crushed by the door on his side of the car. He died in St. Francis hospital, where he was taken to Topeka. The car was almost demolished. The right rear wheel was crushed to splinters.

The fact that there were no chains on the wheels of the death car, nor the wheels of the other White Star cars that passed while they were making an investigation, brought severe criticism from the city. The city hurried to the scene as soon as word of the accident was received in Topeka. The thin coating of ice on the pavement rendered the car extremely slippery, a condition in which even non-skid tires were of little avail. The moment the brakes were applied to a car moving at such a moderate speed, the car would become almost unmanageable, skidding from one side of the road to the other.

It is believed that Stowe's car was skidding in this manner as it approached a curve and that, striking the rough earth on the side of the road, it swung around, resulting in the accident.

The home addresses of the girls could not be learned this afternoon, but it was stated that they were all students and student instructors at the university. It is believed that all live in Lawrence.

MRS. THORSON INJURED IN FALL. Shipped While Sweeping Balcony—Fell to Sidewalk.

Mrs. Mary E. Thorson, 245 Clay street, was painfully injured this morning when she fell from a balcony on the second story of her home to the sidewalk below. She sustained a severe scalp wound and an injury to her hip, but no bones were broken.

Dr. J. H. O'Connell, who attended her, stated that it could not yet be ascertained whether she suffered internal injuries. Mrs. Thorson went on the balcony to sweep the side of the house and slipped on the ice covered floor, falling to the ground below. She was taken to St. Francis hospital.

FORD STRUCK BY STREET CAR. J. T. Willey and Five Small Boys Are Slightly Injured.

J. T. Willey, 112 Fillmore street, and five little boys were injured at noon today when Willey's Ford touring car was struck by a street car at Sixth avenue and Fillmore street. All were taken to St. Francis hospital. Where it was said none of their injuries are of a serious nature.

Willey is an employee of the Scott Weighing Machine company. He was taking the boys home from Clay street school in his car when the accident occurred, it was said.

The WEATHER  
NEW  
FORECAST FOR KANSAS.

Snow with colder weather tonight. Zero east portion. Ten degrees below zero tomorrow. Friday fair. Colder east and south portions. Strong shifting winds.

TO ZERO  
Coldest Weather in Three Years  
Says Laskowski.

Low Temperatures To Be Accompanied by Snow.

East Peace Conference.Entry Will Be Taken Up With  
the Signing of Peace.U. S. HAS INFLUENCE ON TURK  
Plan Will Give League Super-  
vision Over Christians.Ismet Refuses, However, to Give  
Armenians a Home.

Lausanne, Dec. 14.—Turkey will join the league of nations as soon as peace is signed at Lausanne, Ismet Pasha announced at the near east conference today. As the league exercises general supervision over minority populations, Ismet's announcement was interpreted as meaning that Turkey will accept the league's supervision over the Christian peoples of Turkey.

Turkey, said Ismet, likewise agreed in principle to the plan for her seeking admission to the league of nations. She refused, however, the demand for the creation of a national home for the Armenians and the exemption of members of the minorities from military service.

Ismet said Turkey was ready to accord the same treatment to minorities as provided in the treaties exchanged with the various European countries. The Turkish delegate said Turkey accepted the granting of general amnesty to political prisoners. She would decline, however, to establish a national home for the Armenians.

Ambassador Childs' frank talk with Ismet Pasha yesterday on the subject of minorities residing in Turkey made a good impression in Turkish circles and exercised a calming influence on the entire Lausanne conference which nervously saw dangers of a breakdown in the negotiations because of the threatened rupture over the treatment of the Greeks and Armenians by Turkey.

The friendly intervention of the American ambassador at the right moment has convinced the Turks of the intense strength of world opinion—particularly that of the United States—on the need for settlement of the minorities problem.

The Turkish delegate said Turkey accepted the granting of general amnesty to political prisoners. She would decline, however, to establish a national home for the Armenians.

TO SERVE PUBLIC  
Kansas Engineers' Aim Is to  
Give Better Service.Delegates in Topeka From All  
Sections of State.MAYOR WELCOMES THEM HERE  
P. L. Brockway Is Chief Speaker  
Before Convention.This Year Has Been Most Suc-  
cessful in History.

The chief end of the organization of the engineers of Kansas is to increase their power of service to the public, P. L. Brockway, city engineer of Wichita and vice president of the Kansas Engineering society, declared today in his response to the address of welcome to the members of the society given by Mayor Herbert J. Corwin.

In the report of the secretary-treasurer of the society, Jason M. Averill, of Topeka, it was pointed out that the year 1922 has shown the greatest growth in the membership of the society, which any year has ever shown. Averill stated that the society now has an active membership of 225 engineers.

The registration for the early sessions of the convention totaled less than fifty, but the afternoon trains are expected to bring many more engineers to the city for the program of this afternoon, tonight and Friday.

Later in the day the Kansas section of the American Society of Civil Engineers will meet and adjourn for a business meeting Friday evening.

The engineers were welcomed to Topeka by Mayor Herbert J. Corwin, at 9:30 o'clock this morning, and immediately entered upon the business of the day. The committee on appointments of convention committees.

The meeting of the engineers is being presided over by Lloyd B. Smith, president of the society. The first committee to report on an engineering topic was the committee on bridges, of which Ira E. Taylor, county engineer of Mitchell county, is chairman.

The committee on "Economic Problems of Steel Bridges Existing in Kansas" reported by Lloyd B. Smith, president of the society. The committee on "The Treatment of the Problem of Irrigation in Kansas" reported by Lloyd B. Smith, president of the society.
